

PerLogi

CAPABILITY STATEMENT

Perlogix helps shape government customer's foundations with resilient IT & Security solutions.

We bring our **unique industry expertise** to eliminate risks that cost time and money for every engagement.

We interface closely with our customers and teaming partners to **prevent surprises and prioritize requirements**.

Since 2018, we have **helped shape over 15 customer foundations**. While consistently obtaining outstanding and superior feedback, most become repeat customers.

Our **customers leverage and contribute to our innovations** to build better resilient foundations with our evolving capabilities.

DIFFERENTIATORS

We create and support the entire Software Development lifecycle from ideation to production with DevSecOps practices and resilient cyber solutions.

Experience working for Ansible, Puppet, Capital One, FINRA, RedHat, and the DoD. Our team has over 37+ years of industry expertise in all services offered.

Our extensive services offered list, and project-based pricing allows customers to focus on their needs. These are supplemented by our capability of providing 24/7 support for the projects that need it.
